LONDON

London Hiring Outlook Surges Again

MARKET OVERVIEW

Employers in London anticipate a strong labour market during the July – September period, reporting a Net Employment Outlook of +41%. This comes just behind Q1 2022's record Outlook of +42%. Hiring intention is up 10 percentage-points on last quarter and up 29 percentage-points on Q3 2021.

Employers in London are reporting high demand, with a 10 percentage-point increase on last quarter. This is the strongest increase quarter-on-quarter anywhere in the UK and demonstrates continued optimism in the Capital, driven by a record quarter for the Banking & Finance sector and the largest talent pool in the UK. London wages and salary levels are also more attractive for candidates as London weighting continues to apply, even as many candidates work remotely.
