Northern Ireland Hiring Outlook Hits Record High

MARKET OVERVIEW

Employers in Northern Ireland anticipate the strongest labour market since the survey began in 1992, reporting a Net Employment Outlook of +37%.

The Northern Ireland labour market is continuing to go from strength to strength. Hiring Outlook is continuing to grow quarter-on-quarter, with Northern Ireland reporting the highest hiring Outlook of any of the home nations. Northern Ireland continues to capitalise on the frictionless border with an EU country, quashing many of the issues other regions in the UK have faced with access to EU workers – especially for lower skilled, lower paid, temporary work.
